Enabling it allows you to visually follow along with what is being read onscreen.. Having Siri read your content can be quite a liberating feeling It allows you to consume all the reading material you like, but with the added benefit of not having to have your face buried in a screen.. Selecting the second allows you have Siri read everything that is visible on your screen.. To activate Speak Screen use two-fingers to swipe down over the iOS Status Bar A small opaque window will appear and begin reading the content aloud.. Both Speech features are powerful in different ways, but the Speak Screen option is one I've found myself using much more often on iOS. [Cara Buka File Excel 2010 Yang Dipassword](#)
